

::: HARDER BPO RED TUBE

Description:

Is a highly flammable hardener based on benzoyl peroxide for use with polyester putty. Can only be used in combination with amine accelerated resins and fillers.

Available in tubes of 50 gr.

Application:

Should always be processed in combination with polyester putty. Without this hardener the putty will not react.

Data on delivery:

Color:	Red/white
Viscosity:	20,000 mPas
Mass density:	approx. 1.15 gr/cm ³
Shelf life:	6 months in closed packaging
Consistency:	paste

Technical data:

Consumption:	1-3%
Shore:	not applicable

Processing:

Mix the hardener in a 1 to 3% ratio by weight with the resin or filler. Never stir too vigorously in order to avoid air bubbles and a temperature increase.

Safety:

Always provide appropriate protective clothing and gloves. Harder is irritating to eyes and skin as well as flammable. Cleaning agent for tools: cleaner M (environmentally friendly substitute for acetone).

Avoid contact with skin.
