

:: Surface veil 30 G/QM

Description:

Is a reinforcement material consisting of A-glass fibres and suitable for processing with polyester, epoxy and vinylester resins.

Available in 1, 5, 10 m² or rolls of 250 m².

Application:

As finishing coat of a laminate with a too rough structure. Also as first layer after a gelcoat to prevent the so-called pressing through of the fibre structure. Exists in 30 gr/m².

Roll width 100 cm and roll length 250 lm = 250 m².

Data on delivery:

Color:	white/clear
Viscosity:	not applicable
Mass density:	2.50 gr/m ³
Shelf life:	unlimited
Consistency:	fixed

Technical data:

Consumption:	30 gr/m ²
Shore:	not applicable

Application:

Always used in combination with a resin. For higher strength, you should continue to work with a heavier type of glass mat.

Safety:

Always wear suitable protective clothing and gloves. Is not a hazardous material and may be treated as such.

Cleaning agent: water.
