

::: HARDENER BPO POWDER

Description:

Is a highly flammable hardener based on benzoyl peroxide for use with polyester and can only be used in combination with amine accelerated resins and putties.

Available in 500 gr, 5 kg and 25 kg containers.

Application:

Should always be processed in combination with the resin. Without this hardener the resin will not react. For applications with Flexitop polyester resin.

Data on delivery:

Color:	white
Viscosity:	not applicable
Mass density:	approx. 1,23 gr/cm ³
Shelf life:	12 months in closed packaging
Consistency:	powder

Technical data:

Consumption:	1-3%
Shore:	not applicable

Processing:

Always mix the resin before adding the hardener. Then only add 1 - 3% hardener by weight. Never stir too strongly in order to avoid air bubbles and temperature increase.

Safety:

Always provide appropriate protective clothing and gloves. Hardener is irritating to eyes and skin as well as flammable. Cleaning agent for tools: cleaner M (environmentally friendly substitute for acetone).
