

::: Glass tape

Description:

Is a reinforcement material used for the construction of laminates with polyester, epoxy and vinylester.

Application:

For moulded parts in all applications including boat, car, construction and industry. Available in various widths.

Available in different sizes: 205 gr/m² 100 mm.
290 gr/m² 25-50 mm.
350 gr/m² 50-150 mm.

Roll lengths of 100 lm.

Data on delivery:

Color:	white
Viscosity:	not applicable
Mass density:	approx. 2.61 gr/cm ³
Shelf life:	unlimited
Consistency:	solid

Technical data:

Consumption:	depending on application
Shore:	not applicable

Application:

Always used in combination with a resin. For higher strength, apply several layers on top of each other.

Safety:

Is not a hazardous material and may be treated as such. Always wear protective clothing and gloves. Avoid prolonged contact with the skin.
Cleaning agent: water.
