

:: Chopped Glass fiber

Description:

Reinforcement fibres consisting of E-glass threads with a chromosilane and siloxane bond. These are cut to lengths of 3-5 mm. The fibres are mixed with the resin to improve its strength.
Available in 1, 10 and 20 kg packs.

Application:

Reinforcement material for mixing under polyester, epoxy, vinylester and polyurethane, for filling and reinforcing sharp edges or corners.

Data on delivery:
