

:: TRENNSPRAY

Description:

Universal release agent for polyester, epoxy, PU and silicone in a handy spray can (powered with an ozone harmful propellant). Shake canister vigorously before use.
Available in 400 gr packaging.

Application:

To protect negative forms and as a release agent for subsequent use of polyester, epoxy, PU or silicone. Can be applied in moulds consisting of polyester, tooling resin, epoxy, silicone or polyurethane rubber. Do not apply directly to absorbent or porous substrates. For this purpose, first apply a sealing layer (e.g. G4-seal) and let it dry long enough.

Data on delivery:

Color:	colourless-white
Viscosity:	85 mPas
Mass density:	approx. 0,77 gr/cm ³
Shelf life:	12 months in closed packaging
Consistency:	liquid/aerosol

Technical data:

Consumption:	25-50gr/m ²
Shore:	not applicable

Processing:

Always ensure a smooth and clean shape. Apply several layers (2-5) from a distance of 15 to 20 cm. Waiting time between layers approx. 15 min. The applied film must be polished to achieve gloss and release.

Safety:

Always provide appropriate protective clothing and gloves. Avoid prolonged skin contact. Cleaning agent for tools: water

Caution: contents may be under pressure.
