

## **:: SILICONE RUBBER THINNER FLUID**

### **Description:**

Is a liquid thinner for silicone rubbers. When mixed, it produces a thinner silicone rubber, without affecting the actual quality of the rubber itself. Makes the silicone rubber smoother and softer. Available in 200 ml and 1 lt and 20 lt containers.

### **Application:**

As a thinner for silicone rubbers. You keep the quality of the rubber, but you make it thinner for more details. Reduces the hardness.

### **Data on delivery:**

<b>Color:</b>	colourless
<b>Viscosity:</b>	200 mPas
<b>Mass density:</b>	approx. 0.95 g/cm <sup>3</sup>
<b>Shelf life:</b>	12 months in closed packaging
<b>Consistency:</b>	liquid

### **Technical data:**

<b>Consumption:</b>	5-10%
<b>Shore:</b>	not applicable

### **Processing:**

Mix 5-10% Sico Fluid thoroughly under the A-component of the silicone rubber until the desired viscosity is reached. Then add hardener and mix thoroughly again. The addition affects the reaction a little (slower).

### **Safety:**

Always provide appropriate protective clothing and gloves. Avoid prolonged skin contact. Cleaning agent for tools: cleaner M (environmentally friendly substitute for acetone).
