

::: EPOXY KNEADPASTE A+B

Description:

Is a 2 component lightweight paste based on epoxy.
Available in 4 kg, 10 kg and 20 kg packs.

Application:

For the construction of models or as a support mould for form rubber as well as for the repair of existing models in a maximum layer thickness of 40 mm. Has excellent adhesion to various substrates such as GRP, wood and metal. Can be machined afterwards.

Data on delivery:

| | <u>A-comp.</u> | <u>B-comp.</u> |
|---------------|---------------------------------|---------------------------------|
| Color: | brown | grey-white |
| Viscosity: | paste | paste |
| Mass density: | approx. 0,67 gr/cm ³ | approx. 0,67 gr/cm ³ |
| Shelf life: | 12 months in closed packaging | 24 months in closed packaging |
| Consistency: | paste | paste |

Technical data:

Consumption: Depending on application
Shore:

Processing:

Mix both components in the correct weight ratio of 100/100 until you obtain a homogeneous brown colour. Processing time: 30-40 min. at 23°C. Dry after 24 hours and fully cured after 7 days.

Safety:

Always provide appropriate protective clothing and gloves. Avoid prolonged skin contact. Cleaning agent for tools: cleaner M (environmentally friendly substitute for acetone).
