

::: CARBURANDUM GRANULATE

Description:

Is a silicon-based granule with very high wear resistance. Exists in different grain thicknesses: 0-1 mm, 1-2 mm and 2-3 mm. Available in 1 kg, 5 kg, 10 kg and 25 kg packs.

Application:

Ideal as an anti-slip granulate for floors in both polyester, epoxy and polyurethane resins. Can also be used as an abrasive, e.g. in potato peeling machines. For application on trucks, footbridges, stairs, etc.

Data on delivery:

Color:	black/grey
Viscosity:	not applicable
Mass density:	approx. 3.85
Shelf life:	gr/cm ³
Consistency:	unlimited

Technical data:

Consumption:	depending on application
Shore:	not applicable

Processing:

Always mix the two components first, then apply the granules. Spread approx. 1 kg/m² evenly on the surface. After spreading, if necessary, apply a second coat of resin in order to increase the adhesion.

Safety:

Is not a hazardous material.
