

::: HARDER CHP FERRO SPRAY

Description:

Is a liquid, highly flammable hardener based on cyclohexanone peroxide in a plasticizer dissolved in ethyl acetate. Available in 50 gr pack.

Application:

This hardener serves to harden Car Ferro Spray.

Data on delivery:

Color:	colourless
Viscosity:	100 mPas
Mass density:	approx. 1.0 g/cm ³
Shelf life:	6 months in closed container
Consistency:	liquid

Technical data:

Consumption:	3,5%
Shore:	not applicable

Processing:

Always mix the resin before adding the hardener. Only then add 3.5% hardener. Never stir too strongly in order to avoid air bubbles and temperature increase.

Safety:

Always provide appropriate protective clothing and gloves. Avoid prolonged skin contact. Cleaning agent for tools: cleaner M (environmentally friendly substitute for acetone).
